PROFESSIONAL SUMMARY

Software Developer with professional experience in **Frontend Development (React, JavaScript/TypeScript, Next.js, HTML5, CSS3 and Material UI)**. Skilled in designing responsive, accessible and high-performance interfaces, integrating **APIs** and collaborating in **Agile teams** while applying **UI/UX best practices**.

WORK EXPERIENCE

Frontend Developer Monterrey, NL (Remote)
OTIF *Jan 2026 - Present*

- Developed responsive UI components and frontend features for a logistics SaaS company's web platforms (otif.mx and sgl.otif.mx) using React, TypeScript, Next.js and Material UI, working in Agile sprints alongside backend developers and UI/UX designers.
- Built an end-to-end OTIF Careers platform covering the public job application flow with AI-powered resume autofill, HR management of job openings, candidates, application statuses and interview scheduling with calendar views, and an interviewer portal to review candidates, take notes and submit evaluations.
- Collaborated on the redesign of vendor and customer management in SGL, Super Grid Logistics' internal platform used by 120+ employees to manage 15,000+ vendors, 90+ customers, 11,000+ quotes and 1,300+ shipments, and shipped new features such as route demand, biddings and a Vendor/Customer Intelligence module.
- Enhanced UI/UX in otif.mx with AI-powered dashboards summarizing user tasks and priorities, real-time text streaming in Smart Documents chats, floating action buttons and i18n translations.
- Resolved frontend bugs and implemented improvements based on user feedback, participated in code reviews and documented reusable UI components in Storybook.

EDUCATION

Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM) Monterrey, NL
B.S. in Computer Science and Technology, ***GPA: 4.0 (96.53)*** *Aug 2021 - Jun 2025*

- **Coursework:** Software Development, Web Development, Mobile Apps, DSA, OOP, Databases, UI/UX, AI.

PROJECTS

Popflix | *React, JavaScript, HTML5, Tailwind CSS* Nov 2025 - Dec 2025

- Built a responsive streaming-style web application connected to the TMDB API, displaying complete movie and TV show details.
- Implemented dynamic sections such as Trending, Popular, Top-Rated, genre-based categories and a global search bar.
- Developed interactive features including carousels, modals, embedded trailers and a Watch List system.

Phone Planet | *React, JavaScript, HTML5, Tailwind CSS* Sep 2025 - Oct 2025

- Created a responsive e-commerce web application for a cellphone store featuring 8 brands, 180+ products and 800+ variants.
- Implemented advanced product filtering, sorting, search and pagination functionalities to enhance user experience and navigation.
- Simulated a complete shopping cart and checkout process, providing a realistic frontend purchase flow.

Diego's Portfolio | *React, JavaScript, HTML5, Tailwind CSS* Aug 2025

- Developed a personal portfolio showcasing my experience, projects and skills with smooth animations and modern UI components.
- Implemented dynamic project showcases with images, brief descriptions and links to live demos and source code.
- Built key sections including Hero, About Me, Skills, Work Experience timeline, Projects and a Contact form.

Bazaar Profit Management Dashboard | *React, JavaScript, HTML5, CSS3, REST APIs, Postman* Feb 2024 - Jun 2024

- Built a React admin dashboard to track 100+ daily sales, manage users and generate reports for a children's hospital bazaar.
- Integrated RESTful APIs from the team's Django backend, testing endpoints with Postman to ensure reliable data flow.
- Developed responsive and accessible UI in React, optimizing user interactions and performance across devices.

Star Wars Planets Blog | *React, JavaScript, HTML5, CSS3, Node.js, Express, PostgreSQL* Apr 2024

- Created a full-stack web app inspired by the Star Wars universe to explore 40+ planets through a blog-style interface.
- Implemented RESTful APIs with Express and PostgreSQL for post and author management.
- Designed a responsive React UI with searchable, alphabetically sorted planet cards and detailed post pages.

Expoingenierias Web Platform | *HTML5, CSS3, JavaScript, Bootstrap, PHP, MySQL* Feb 2023 - May 2023

- Built a full-stack platform to register, evaluate and manage projects for a university expo with 200+ participants.
- Implemented role-based access for students, teachers, judges and administrators, securing workflows.
- Designed a responsive UI, built interactive JavaScript components and integrated a secure MySQL backend.

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, C++, C#, Java, Swift, Elixir.
- **Frontend:** React, Next.js, Vite, HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap, React Hook Form, Zod, Motion, Aceternity UI, Magic UI, Storybook, Figma.
- **Backend & Databases:** Node.js, Express, PHP, Firebase, PostgreSQL, MySQL, MongoDB, SQL.
- **DevOps & Tools:** Git, GitHub, Gitea, Docker, Google Cloud, Vercel, Render, Postman, Hoppscotch, Jira.
- **AI Tools:** ChatGPT, Claude Code, Cursor, DeepSeek, Gemini, GitHub Copilot, OpenClaw.
- **Others:** Android Studio, Xcode, Unity, Photon, OpenGL, Freeglut, Blender, ANTLR.
- **Languages:** Spanish (Native), English (Advanced).
